Framing Services

Our Framing Service will give you a finished framed product that is checked and carefully packed. All you need is to choose the mount style, a frame from over 600 different profiles and the required finish whether it's clear glass, non reflective, perspex or UV laminated.

The styles and options are extensive, providing a suitable combination for all styles. We use high quality UV Museum Glass, visible clear glass or non glare 2mm glass to finish your framed prints. White Core Acid Free Cut mounts are available in a multitude of colours in both single and double mounts. We also offer a vast selection of prints to choose from ranging from contemporary to classic to modern. Each framed print is hand-assembled by our highly skilled craftsmen using materials sourced from the best suppliers in their field, allowing us to offer outstanding quality and value for money.

Due to advancements in digital printing over the recent years, corporate art is now a very affordable and popular solution for office artwork and soft signage.

Deco offers various aesthetic finishes including stretched canvas wraps, matt or gloss block frames, framed artworks with a lamination or acrylic finish as well as prints on wood and photo on glass.

Printing Services

Deco offers a professional printing service to professional photographers, individual clients, companies and also other organisations.

Giclee is a sophisticated ink-jet printing method. It merges the use of professional grade large format printers with archival pigment inks, acid free watercolour papers and canvas. By using custom profiles, precise colour correction and expert scanning, digital printing can produce subtle gradations and many other colours that would be out of range with other technologies. All art substrates used are archival and acid free.

In-house photo editing can be offered in support to client needs. We are sensitive to the demands of clients and are keen to provide services to an exacting standard demanded by artistic photography. We print on different materials such as canvas, photographic paper, wallpaper, silk and watercolour paper.

The UV Printing solution on the other side can print also on rigid materials such as Wood, PVC, Acrylic, Alubond, Tiles, Travertino, Glass etc. giving more options and possibilities.

Wallpapers and Murals

Deco's digital printed wallpaper offers you an economical wall decoration solution. Beyond printing photographic images, design benefits include the ability to produce unique patterns, colour matching to the environment corporate branding, the ability to create perspective and a sense of space as well as motivational messages to both employees and clients.

We digitally print images onto all sizes of wall covering material from a selection of thousands of licensed images. We can also supply individual own images or artwork to fit any room. Wall murals are becoming a popular trend in décor of homes, offices and open spaces.

Custom mural options may include your own photo or artwork. Our team of design professionals can also offer alternative options on how you may design your mural to fit any situation. We can create what you imagine.

....

GET THAT POLISHED LOOK.

Large Format Printing

.....and size is not an issue. We can print whatever size you need.

Whether for indoor or outdoor applications, for large-projects or one-off installation – if you have a marketing campaign, a product to promote, an event to showcase, or you need to freshen up your brand communication or interior design, DECO would be delighted to realize your ideas with purpose suited graphic solutions that are tailored to your unique requirements.

DECO is one of the leading producers of large format graphic solutions for Retail, Interiors, Museums, Exhibitions, Corporate Companies, Events and Leisure. We at DECO can produce just any large format printing product according to your specifications and budget. For added value and durability we can also laminate your work. This will guarantee a distinctive finish, enhanced colour brilliance and long-term UV protection.

We offer a solution orientated approach and take pride in delivering an exceptional and personal service creating stunning outputs for any campaign. We can produce and print graphics onto almost anything;

DECO has a great reputation for delivering the highest quality products at the most competitive prices with a full service from design to installation in time-critical deadlines. We use the very latest photographic and large format digital print processes and machines in-house. In addition, we provide a high level of project management consultancy, site survey and installation service alongside creative inputs and artworking. We stock several types of self-adhesive vinyls, banner material, photo paper, poster paper, billboard paper, microdot self-adhesive vinyl, one way vision monomeric vinyl, mesh material, art canvas, reflective vinyl and photo-luminescent material.

Types of Printing we provide

- Outlet Branding
- Commercial & Residential Wallpaper
- Canvas Banners
- Outdoor display signs
- Sandwich Boards
- Safety Signs
- Acrylic Signs
- Health & Safety Signage
- Room Numbers and Way Finders
- Sign Cut
- Vehicle Wrapping
- Floor Graphics
- Custom Signs

Window and floor graphics

One of the most cost effective, grabbing attention solutions used in retail stores today are window and floor graphics. We can offer one way vision, sign cut stickers and messages, full wallpaper backdrops and laminated floor graphics. Safety signs and waypoint signs on PVC boards or stuck direct on the wall clearly marking places like restrooms, stores, offices and other areas are also a must. Our designers can also help in artwork creation making sure the message reaches your clients and customers.

Signage

We also offer endless, tailor made combinations for signage using different materials such as Clear cast Acrylic, PVC, Alu Bond. Whether printed directly on substrates or sign cut, we can offer way finders, room numbers, evacuation plans and Health and Safety Signs are displayed throughout all premises. We offer a full range of commonly used symbolic signs, for the construction industry, road signs, general office signs, marine safety signs, to any other required bespoke safety signs. We can also provide signs with photoluminescent materials which is of particular importance if lights are reduced during an emergency. Rigid substrates for attaching vinyl lettering or print films like opaque and clear window decals are also available.

Banners

Deco prints PVC banners for both indoor and outdoor applications. PVC banners are durable and weather resistant. We can also print Roll-up, Pop Up Walls or pop-up banners for a press launch. Banners can also include mounting eyelets for stringing up. Our range of banners solutions are easy to carry, cost effective and simple to mount, providing your business and branding with the exposure it deserves.

Art On Glass

With Artworks and the bonding on Glass, we have developed an exciting process allowing us to precisely produce arts into textured glass giving you greater versatility in all aspects. Applications include screens, splash backs, counter tops, table tops, door glass and artworks to hang. The combination of textured glass and graphics offer totally unique and stunning solutions to interior design projects.

Be it a Printed Glass Splash-back, Wall Mural, Glass Partition or your Family Portrait – printed onto glass will certainly create that astonishing factor.

Printing onto glass has become more and more popular now the technology is there to produce such work. We are able to print on photographic material and then bonded onto glass up to 2440 x 1060 (Max. Size). Glass printing can be useful in many situations such as Signage, Decorative work and Project work.

Glass Manifestation

Glass manifestation solution is the solution for design, privacy, decoration and corporate branding. Various effects can be achieved using techniques such as transparency printing, stained glass filming, photo printing, sandblasting and self adhesive films for glass partitions. Glass partitioning, screens and glazing all play a major role in the construction of today's business environment.

A large wall mural made of ceramic tiles depicting a dining table scene. The scene is viewed from above, showing a wooden table with various dishes: a bowl of rice and vegetables, a blue bowl of green herbs, a plate of fried noodles, a blue plate of salad, a plate of sliced lemons, and a plate of meat. Hands are visible holding a glass and a bottle. The mural is set in a restaurant with wooden tables and yellow chairs. The text "Ceramic Mural Tiles" is overlaid in a white serif font.

Ceramic Mural Tiles

Taking tiles to a new dimension.

When people visit your restaurant, they're looking for more than just food on a plate; they're looking for an experience. From the minute someone walks through the door, there should be an immediate chemistry with the environment. To ensure such experience, everything, from restaurant design to the restaurant menu should be carefully planned and arranged.

Deco custom printed ceramic tiles play a critical role to offer a unique setup in any restaurant, bistro or any other culinary environment. Whether it is a logo, a specific design or an image, Deco custom printed ceramic tiles create a unique character to any outlet.

Process

Images, designs or logos are enlarged to the size requested by client and divided into the number of tiles that fit into the area desired. The artwork is either printed directly with UV Printing System or printed on sublimation paper following which all tiles are decorated one by one and subsequently exposed to high temperatures.

The tiles for print need to be white with a sublimation coating and are available in various sizes namely;

- 203x304 mm
- 203x254 mm
- 203x203 mm
- 108x108 mm
- 152x152 mm
- 152x203 mm

The printed tiles are durable and can be washed only with water and soap. The tiles are to be used indoors and not in areas exposed to direct sunlight.

Wall Skirting Coving

Make flat walls come to life

Decorating walls is one of the latest fashion trends. **Skirting coving** and **dado rails** are being used to decorate walls. Whilst upstanding dado rails are used for both protection against chair damage as well as decoration, Coving is used to cover wiring and creatively include hidden lighting. We can make flat dull walls come to life using "wallscaping" with our dado panel mould range and easily create attractive panelling or frames on walls and ceilings.

This is made even simpler with the pre-formed corners on certain profiles. The manufacture of cornice and other architectural mouldings take advantage of this materials characteristics in the fact that they are lightweight, fire retardant, durable, pre-primed for painting and easy to install. Sleek and modern, these panel mouldings are waterproof, knock proof and designed to complement each other from dado, skirting and architrave to create a beautiful, continuous symmetry throughout.

Skirting Boards are ideal for schools, hospitals, shops, offices and any residence. They are made of high-performance PVC making it water and humidity resistant and easy to clean. With different designs and colours, makes it easy to fit any style and purposes. It has the advantage of protecting wall bases; besides, this stylish skirting board has a cable distribution system that spares you the trouble of hammering grooves in the walls and makes your interior more aesthetically pleasing. In addition, it offers an unlimited number of disassembles.

Roller Blinds

Give your windows a gorgeous makeover with our printed blinds. Available in Standard and Blackout fabrics, you can make your own blinds to complement your home décor or to use in your bedroom for a better night's sleep. Lovingly handmade to order and custom printed with your photos, designs or artwork. Perfect for corporate branding, bedrooms, classrooms, bars or entertainment rooms these roller blinds bring any room or window to life.

CUSTOM BLINDS FEATURES

- **Blackout & Standard options**
- **Fire retardant and non-fray**
- **Graphics facing inwards or outwards**
- **Made to measure to suit your needs**
- **Includes instructions & safety cord clip**
- **Maximum width size 150cms.**
- **Comes with 3 year guarantee**

Glass Splash Backs

Glass splash backs are a modern and hygienic alternative to traditional tiles. There are many practical benefits to using glass in your kitchen design, however there are even more design benefits.

Aesthetically, a glass splash back clean lines and simple design allow for the kitchens units to sing. Tiles with their grout lines and sealants simply complicate the look, not to mention their ongoing maintenance.

Glass splashbacks can be shaped around obstacles such as plug sockets and cooker hoods. Shaping is seamless with no splits necessary.

A simple glass splash back can be made to fit between upstands and cupboards. This solution can bring some colour, leaving the option of painting the walls either side. Alternatively, if your worktop has already been fitted, it is possible to create glass upstands to match your cooker splash back. One advantage of opting for glass upstands is the opportunity to decide what height to make them. We recommend tall enough to catch splashes, but low enough to miss plug sockets (and the costs associated with making 'cut outs').

We print any pattern or image digitally printed on glass and these splash backs come in a 5mm glass tampered after the oven and cooker and can also be opti white so that the green colour of the normal transparent white will not show.

Deco contracts frameworks for hotels, restaurants, communal homes and residences. Interior Designers use the printing and various finished wall art aspects that our company produces for their projects. Deco, with a 30 year experience both in the local and export market, have managed to carry out such works successfully, mostly working with interior designers commissioned by clients. Deco is renowned and full of experience in working to client's orders and specifications. Some important local brand names used our services in Framing, printing and other wall art designs to brand their offices, enhance public areas in hotels as well as decorate living spaces. We stress on quality and durability to ensure that Deco products are worth your money.

Consultation & Project Management.

We are able to creatively combine and adapt our skills and techniques to great effect for all our clients. We have a wealth of accumulated knowledge and experience in the manufacture of interior art frames and graphics. Our clients expect their suppliers to be reliable, quality driven and meet deadlines. On even one smallest job, one member of our team will take responsibility for a project to see the job through from order to installation.

Sampling & Prototyping

We understand the importance of producing samples of proposed material finishes and product solutions. Deco actively encourages a free of charge sample service that ensures both designer and clients are happy with the finish and colours. Please do not hesitate to ask for a sample when discussing your project with Deco.
