

As a company style is very important to us, we have been in the art and framing industry in Malta for more than 30 years and were able to distinguish changes in design and framing trends which helped us to expand our expertise in this sector and also helped us grow as a company. For us style can vary from elegant to avant-garde and also emotional. When we deal with our customers we try to get their ideas, what inspired them, their way of life and most of all their home style.

There are also customers who leave it in our hands to brighten up their walls and that is where our highly trained staff can help them transform that blank idea into a stylish finish. Customers involvement is vital in choosing the best option, whether framing or a finished piece of art that suits their tastes and needs. We believe in the satisfaction and fulfilment of the desires and ideas of our customers as that brings so much joy and compensation to Deco Manufacturing. We can help our customers select from a variety of frames, art pieces, styles materials and products in different finishes.

We believe that a home is something that is precious to a person and where memories are built and eventually kept and so together with Deco, one can achieve that perfect ambience for unforgettable memories. Like a man needs a bow to complete his tuxedo a home needs Deco to be a complete perfect home for now and forever. Remember that you don't need to change a home to change the atmosphere, but turn things around; buy those little things that make a difference and the result? You have a brand new home each time!
